AUTHOR / TITLE ALPHABETICAL INDEX

Vol.50, 1986

	No.	Page
AGALOVYAN L.A. and GEVORKYAN R.C.: On the asymptotic solution of mixed three-dimensional problems for double-layer anisotropic plates.	2	202
AKULENKO L.D. and SHAMAYEV A.S.: Approximate solution of some perturbed boundary value problems.	2	146
ALEKSANDROV A.I., BOBORYKIN V.G. and MEL'NIKOV YU.A.: An iterative method of solving the problem of interaction between elastic bodies.	2	246
AL'BREKHT E.G.: Extremal strategies in non-linear differential games.	3	255
ANDRIANOV I.V.: Construction of simplified equations of non-linear dynamics of plates and shallow shells by the averaging method.	1	126
ANYUTIN A.P. and BOROVIKOV V.A.: Evolution of localized disturbances of a stratified fluid with variable Brent-Vaisala frequency.	5	670
ARUTYUNYAN N.KH. and METLOV V.V.: On the principle of invariance in the theory of inhomogeneously ageing shells.	6	800
ARUTYUNYAN N.KH.,MOVCHAN A.B. and NAZAROV S.A.: On correct formulations of Lekhnitskii problems.	2	174
AZAMOV A.A.: On an alternative for pursuit-evasion games in an infinite time interval.	4	428
AZIZOV A.G.: On the motion of a controlled system of variable mass.	4	433
BAIMURZAYEVA ZH.KH.: On constructing a functional in the problem of optimal control.	1	115
BASHKIROV A.G.: Surface properties and stability of shock waves in gases.	5	576
BEKOV A.A.: Integrable cases of the Hamilton-Jacobi equations and dynamic systems reducible to canonical form.	5	550
BELETSKII V.V. and LEVIN E.M.: The stability of rotation of a satellite ring.	2	131
BELIKOV S.A.: Stability of the uniform rotation of a gyrostat round the vertical main axis on an absolutely smooth horizontal plane.	1	51
BERBYUK V.E.: The use of first integrals in problems of synthesizing optimal control systems.	1	11
BLINOV A.P.: The asymptotic stability of systems with delay.	5	658
BOBKOV N.N. and GUPALO YU.P.: On inertial effects on discontinuities in the concentration of the solid phase in a disperse medium.	5	583
BOBORYKIN V.G.: see ALEKSANDROV A.I.	2	246
BOGDANOVA E.V. and RYZHOV O.S.: On laminar preseparation flow.	3	297
BOLOTINA N.E., VIL'KE V.G. and MARKOV YU.G.: On the rotational motion of a solid carrying a viscoelastic disc in a central field of force.	2	136
BOROVIKOV V.A.: see ANYUTIN A.P.	5	670
BRYUM A.Z. and GORR G.V.: The sufficient conditions for the existence of asymptotically pendulum-like motions of a heavy rigid body with a fixed point.	4	522
BRYUM A.Z. and SAVCHENKO A.YA.: On the orbital stability of a periodic solution of the equations of motion of a Kovalevskaya gyroscope.	6	748
BURD V.SH.: Stability under constantly acting perturbations, and averaging in an unbounded interval in systems with impulses.	1	35
BUROV A.A.: On the non-existence of a supplementary integral in the problem of a heavy two-link plane pendulum.	1	123
BUROV A.A. and SUBKHANKULOV G.I.: On the motion of a solid in a magnetic field.	6	743
BYKOVTSEV A.G.: The refraction of a shear wave in a non-linearly elastic and elastoplastic half-space.	3	373
BYKOVTSEV A.S.: Propagation of complex discontinuities with piecewise constant and variable velocities along curvilinear and branching trajectories.	5	620
CHEREPANOV G.P.: The motion of point defects in solids.	3	380
CHERKAYEV A.V.: see VIGDERGAUZ S.B.	3	401
CHERNAYA G.G.: Diffusion analogue of a combustion wave in a system with discrete sources.	6	769
CHERNYAEV P.K.: see NAZAROV S.A.	5	629
CHERNYAKOV YU.A.: see KADASHEVICH YU.I.	6	690
CHERNYSHEV G.N.: see GOLOVANOV V.A.	3	330

	No.	Page
DANILOV N.N.: Dynamically stable principles of optimality in cooperative differential games on quick action operation.	1	1
DEMIDOV K.V.: Differential games with variable structure, with a group of pursuers chasing a single target.	1	111
DEMIDOV M.A. and MIKHAILOV A.P.: Effects of localization and formation of structures during the compression of a finite mass of gas in a peaking mode.	1	85
DIYESPEROV V.N.: Investigation of selfsimilar solutions describing flows in mixing layers.	3	303
DROZDOV A.D. and ZHUKOVITSKII D.M.: Stability of circular plates from ageing viscoelastic material.	2	208
DRUYANOV B.A.: Generalized solutions on the theory of plasticity.	3	367
FARSHAIT P.G.: see ONISHCHUK O.V.	2	219
FILIPPOVA L.M.: Stress distribution near the edge of a crack in a prestressed elastic body.	2	240
FIL'SHTINSKII L.A.: see IVANENKO O.A.	1	92
FOMIN V.M.: Non-stationary dynamic contact problem for a periodic system of stamps under arbitrary loading	3	350
FROLOV A.V.: see KOLMANOVSKII V.B.	4	415
FURTA S.D.: On the asymptotic solutions of the equations of motion of mechanical systems.	6	726
GALANOV B.A.: On the non-linear boundary equations of the mechanics of the contact of rough elastic bodies.	3	357
GERSHBEIN E.A., KRUPA V.G. and SHCHELIN V.S.: Investigation of a three-dimensional hypersonic viscous shock layer on blunt bodies around which flow occurs at angles of attack and slippage.	1	79
GEVORKYAN R.C.: see AGALOVYAN L.A.	2	202
GOLOVANOV V.A., POPOV A.L. and CHERNYSHEV G.N.: The vibrations of a bounded plate in a fluid.	3	330
GOL'DSHTEIN R.V. and ZHITNIKOV YU.V.: Equilibrium of cavities and cracks-splits with overlap and opening domains in an elastic medium.	5	638
GOL'DSHTIK M.A. and YAVORSKII N.I.: On submerged jets.	4	438
GOL'TSER YA.M.: On a measure of the closeness of neutral systems to internal resonance.	6	731
GORR G.V.: see BRYUM A.Z.	4	522
GORSKII V.B.: Vortical flows and canonical equations of motion of a magnetizable, perfectly conducting fluid.	3	388
GRIGORENKO V.L. and KRAIKO A.N.: Internal shock waves in supersonic ideal gas flows past wedge-plate and cone-cylinder configurations.	1	65
GUPALO YU.P.: see BOBKOV N.N.	5	583
GUSEIN-ZADE M.I.: The nature of sound emission in the forced vibrations of shells in a compressible fluid.	5	682
IL'IN A.I.: On the stability of unsteady motions.	1	40
IVANENKO O.A. and FIL'SHTINSKII L.A.: On the theory of regular piecewise-homogeneous structures with piezoceramic matrices.	1	92
IVANOV A.P.: On the correctness of the basic problem of dynamics in systems with friction.	5	547
IVANOV M.YU., KOROBOV V.K., NIKOLAYENKO V.M. and STANYUKOVICH K.P.: Compression of a multilayered medium under the action of a variable external pressure.	4	525
KADASHEVICH YU.I., NOVOZHILOV V.V. and CHERNYAKOV YU.A.: Theory of plasticity and creep taking account of microstraints.	6	690
KANAUN S.K. and KUDRYAVTSEVA L.T.: Spherically layered inclusions in a homogeneous elastic medium.	4	483
KANAUN S.K. and LEVIN V.M.: Propagation of elastic waves through media with thin crack-like inclusions.	2	231
KARAPETYAN A.V. and RUBANOVSKII V.N.: On the stability of stationary motions of non-conservative mechanical systems.	1	30
KHRDZHIYANTS I.F.: see SUMBATYAN M.A.	2	189
KIPNIS L.A.: A piecewise-homogeneous plane with a separating boundary in the form of the sides of an angle and a symmetrical cut originating from the vertex.	2	252

	No.	Page
KLOCHKOV B.N.: Elastic waves in a material with chemomechanical reactions.	3	341
KOLMANOVSKII V.B. and FROLOV A.V.: Optimal estimates of the coordinates of systems with a time lag with respect to a set of continuous and discrete observations.	4	415
KOREL'SHTEIN L.B.: Asymptotic solution of spatial problems of elasticity theory extended plane shear cracks.	5	645
KOROBOV V.K.: see IVANOV M.YU.	4	525
KOSENKO I.I.: On a power series expansion of the gravitational potential of an inhomogeneous ellipsoid.	2	142
KOZLOV V.V.: Asymptotic motions and the inversion of the Lagrange-Dirichlet theorem.	6	719
KRAIKO A.N.: see GRIGORENKO V.L.	1	65
KRASNOSEL'SKII A.M.: New theorems on forced periodic oscillations in non-linear control systems.	2	165
KRASOVSKII N.N.: On synthesis in a differential game.	6	696
KRIVOI A.F., POPOV G.YA. and RADIOLLO M.V.: Certain problems of an arbitrarily oriented stringer in a composite anisotropic plane.	4	475
KRUPA V.G.: see GERSHBEIN E.A.	1	79
KUDISH I.I.: The contact problem of elasticity theory for bodies with cracks.	6	789
KUDRYAVTSEVA L.T.: see KANAUN S.K.	4	483
KULIKOVSKII A.G.: Equations describing the propagation of non-linear quasitransverse waves in a weakly non-isotropic elastic body.	4	455
KULIKOVSKII A.G.: Some comments on the book "Hydrodynamics" by L.D. LANDAU and E.M. LIFSHITZ.	6	806
KUNITSYN A.L. and TASHIMOV L.T.: On the instability of a periodic system in the case of internal resonance.	6	738
KURAKIN L.G. and YUDOVICH V.I.: Semi-invariant form of equilibrium stability criteria in critical cases.	5	543
KURYAKOV V.A.: A method of constructing polhodes of an intermediate motion in the dynamics of a rigid body.	5	666
KUZ'MENKO V.I.: Inverse contact problems of the theory of plasticity.	3	361
LE KHAN'CHAU.: The theory of piezoelectric shells.	1	98
LE KHAN'CHAU.: High-frequency longitudinal vibrations of elastic rods.	3	335
LEVIN E.M.: see BELETSKII V.V.	2	131
LEVIN V.M.: see KANAUN S.K.	2	231
LIKHACHEV V.N.: Influence of dissipation on the propagation of a spherical explosion shock wave.	3	290
LIN'KOV A.M. and MOGILEVSKAYA S.G.: Finite-part integrals in problems of three-dimensional cracks.	5	652
LOBODA V.V.: On singularities of the state of stress of an orthotropic half-strip.	2	195
LOMAZOV V.A. and NEMIROVSKII YU.V.: A mathematical model of the problem of diagnosing a thermoelastic medium.	2	212
MAKSIMOV S.B.: The problem of the flow of a plastic material along a surface.	4	533
MALYI V.I.: One representation of the conditions of the compatibility of deformations.	5	679
MARKOV YU.G.: see BOLOTINA N.E.	2	136
MATVIICHUK K.S.: The technical stability of parametrically excitable distributed processes.	2	154
MAZO V.L. and RUDERMAN M.S.: One-dimensional stability of dissipative Couette flow.	5	674
MEL'NIKOV YU.A.: see ALEKSANDROV A.I.	2	246
METLOV V.V.: see ARUTYUNYAN N.KH.	6	800
MIKHAILOV A.P.: see DEMIDOV M.A.	1	85
MISYURA V.A.: Estimate of the error in the linearization of geometrically non-linear problems of the theory of elasticity.	5	601
MOGILEVSKAYA S.G.: see LIN'KOV A.M.	5	652
MOROZOV A.D.: On evolutionary motions of a particle in a gravitational field.	3	271
MOSOLOV A.B.: Neutral loading in the endochronic model of the theory of plasticity.	2	249
MOVCHAN A.B.: see ARUTYUNYAN N.KH.	2	174

	No.	Page
NAKHMEIN E.L. and NULLER B.M.: Contact between an elastic half-plane and a partly separated stamp.	4	507
NAZAROV S.A.: see ARUTYUNYAN N.KH.	2	174
NAZAROV S.A. and CHERNYAEV P.K.: Antiplane shear of a domain with two closely located cracks.	5	629
NEMIROVSKII YU.V.: see LOMAZOV V.A.	2	212
NESTERUK I.G.: The restrictions of the parameters of cavitational flow.	4	446
NETREBA S.N.: The reaction of stratified rotating media to local thermal effects.	5	565
NIKOLAYENKO V.M.: see IVANOV M.YU.	4	525
NOVOZHILOV V.V.: see KADASHEVICH YU.I.	6	690
NULLER B.M.: see NAKHMEIN E.L.	4	507
OBRAZTSOV I.F.: Pressing problems in the mechanics of composite material structures.	6	687
OLIFER V.I.: A general solution of the static problem of the theory of asymmetrical electricity.	3	399
ONISHCHUK O.V., POPOV G.YA. and FARSHAIT P.G.: On the singularities of contact forces in the bending of plates with fine inclusions.	2	219
OZIRANER A.S.: The use of quadratic forms to study the stability with respect to part of the variables.	1	119
PANASYUK A.I.: Equations of the dynamics of sets of reachability in problems of optimization and control under conditions of uncertainty.	4	405
PARSHIKOVA N.V.: Calculation of the force and moment of forces acting on a drop in an arbitrary non-steady flow of a viscous fluid.	5	594
PASHKOV A.G.: Comparison of the solutions of linear and non-linear positional differential games of encounter.	4	421
PASKAL M.: The use of the method of averaging to study non-linear oscillations of the celtic stone.	4	520
PETUKHOV L.V.: On optimal problems of the theory of elasticity with unknown boundaries.	2	170
PLIS V.I.: Diffraction of Kelvin waves in a rotating semibounded basin containing a semi-infinite wall.	3	286
PIUNOVSKII A.B.: Optimal control of stepwise processes with periodic characteristics.	1	16
PODDUBNYAK A.P.: Integral equations of the problem of the torsion of an elastic body with a thin disc-like inclusion.	4	492
POKROVSKII V.N. and TSKHAI A.A.: Slow motion of a particle in a weakly anisotropic viscous fluid.	3	391
POLUBARINOVA A.I.: A method for solving partial differential equations using differentiable trigonometric Fourier series.	6	802
POPOV A.L.: see GOLOVANOV V.A.	3	330
POPOV A.YU.: Forced oscillations in imperfect and statically loaded shells.	4	529
POPOV G.YA.: see KRIVOI A.F.	4	475
POPOV G.YA.: see ONISHCHUK O.V.	2	219
POPOV V.V.: Vibrations of a segment of a variable-length longitudinally-moving string.	2	161
POSLAVSKII S.A. and SHIKIN I.S.: On non-one-dimensional selfsimilar solutions with plane waves in gas dynamics.	1	75
POTAPOV V.D.: Stability of a growing viscoelastic rod subjected to ageing.	6	782
PROTSENKO V.S., SOLOV'YEV A.I. and TSYMBALYUK V.V.: Torsion of elastic bodies bounded by coordinate surfaces of toroidal spherical coordinate systems.	3	313
RADIOLLO M.V.: see KRIVOI A.F.	4	475
RAPOPORT L.B.: Lyapunov stability and sign definiteness of a quadratic form in a cone.	4	515
